

HOMELESS & HOUSING RESOURCE CENTER

Integrating Behavioral Health Supports into Respite Care for People Experiencing Homelessness

March 17, 2022
2:00-3:00pm ET

2

Disclaimer

The Homeless and Housing Resource Center is a program operated by Policy Research, Inc. and developed under grant 1H79SM083003-01 from the Substance Abuse and Mental Health Services Administration (SAMHSA), U.S. Department of Health and Human Services (HHS). Interviews, policies, and opinions expressed are those of the authors and do not necessarily reflect those of SAMHSA or HHS.

3

ASL Interpretation and Transcription

- We have arranged for ASL interpretation services during this meeting. The ASL interpreters are:
 - Catherine Lambe
 - Michele Johnson
- Live transcription from Zoom is available
 - Click Live Transcript  and then select Show Subtitle
 - Subtitles can be moved within the window and re-sized
- If you are experiencing technical difficulties, please contact info@hhctraining.org

4

Webinar Instructions

- All participant lines will be muted and the chat feature is disabled
- **Slides:** Available now on HHRC website: <https://hhrctraining.org/events-webinars>
- **Recording:** Will be available on the HHRC website in 1 week
- **Questions:** Please submit your questions using the Q&A feature
- **Evaluation:** Browser will redirect following the webinar
- **Certificate of Participation** (no CEUs are offered): Provided after evaluation is completed

5

Learning Objectives

1. Describe key elements of the medical respite care model and how the model improves health and housing outcomes for individuals experiencing homelessness.
2. Identify ways to address stigma associated with treating behavioral health conditions and tools for improving post-acute clinical care for patients.

6

Panelists

- **Julia Dobbins, MSW**, Director of Medical Respite, National Health Care for the Homeless Council, Nashville, TN
- **Leslie Enzian, MD**, Medical Director, Edward Thomas House Medical Respite, Harborview Medical Center, Seattle, WA
- **Raven Kauffman, CHW**, Respite Care Manager, Joseph's Home, Cleveland, OH

7

Integrating Behavioral Health Supports into Respite Care for People Experiencing Homelessness

March 17, 2022

The National Institute for Medical Respite Care is a special initiative of the National Health Care for the Homeless Council.

8

Homelessness & Health

- **Poor health** causes homelessness
- Homelessness causes **new health problems** & exacerbates existing ones
- The experience of homelessness makes it **harder to engage in care** and receive appropriate services

9

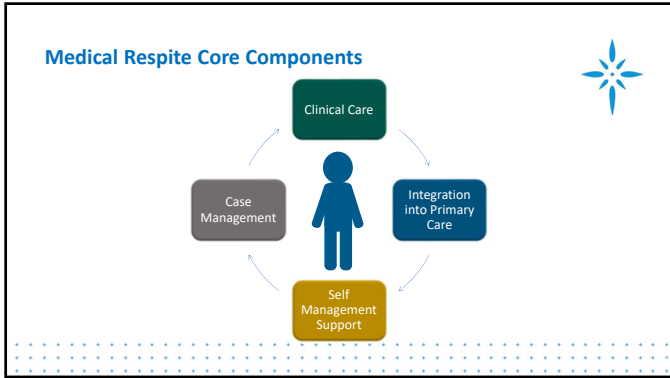

Medical Respite Care: Definition

- Post-acute care for people experiencing homelessness who are too ill or frail to recover from an illness or injury on the street or in shelter, but who do not require hospital level care.
- Short-term residential care that allows people an opportunity to rest, recovery, and heal in a safe environment while also accessing clinical care and support services.

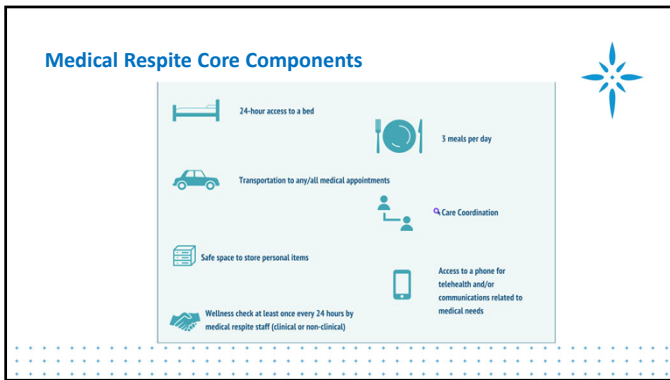

Diversity of Programs

- Bed number
- Facility type
- Length of stay
- Staffing and services
- Referral sources
- Admission criteria

10

11

12

- Why are we having this conversation?**
- Medical respite is whole person, integrated care
 - Stigma within homeless services
 - Increase in acute events related to untreated chronic illness (e.g. diabetes, cardiovascular disease, behavioral health)
 - Higher fragility/aging
 - How can we build system capacity? What is best practice?

13

Philosophies of Care

Client-centered

- Client goals drive the individualized case management plan
- All services are voluntary
- Consider the whole person

Housing First

- Must be experiencing homelessness and an acute medical condition
- Few barriers to admission
- Focus on ending clients' homelessness as quickly as possible

Trauma-Responsive

- Understanding of what trauma is and how it impacts those we serve
- Avoid triggering trauma but also look to help clients and staff build resilience

Culturally Competent & Equitable

- Understand cultural backgrounds and historic traumas; eliminate linguistic barriers
- Measure admissions, discharge by race, gender, LGBTQIA and disability to root out bias
- Cultivate diverse leadership at staff and board levels, including client representation

16

2021 – Target Population & Outcomes

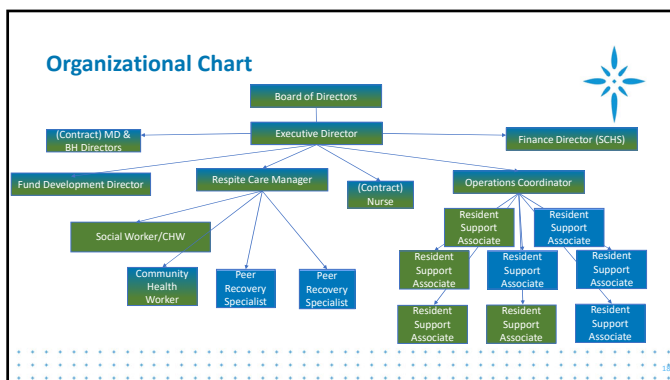

Housing & Health Outcomes

Selected Outcomes	2021	2020
% Medically Stable at Discharge	72%	69%
% Discharged to permanent housing or other stable setting	61%	57%
Average Length of Stay (in months)	2.36	2.59
% of Alumni remaining in Stable Housing	89%	90%
% of Alumni remaining Medically Stable	91%	88%

Population Demographics

Selected Characteristics	% in 2021
Black/African-American	69%
Latino/Hispanic	2%
Adults 50 years of age and older	72%
Chronically Homeless	34%
Severe or Persistent Mental Illness	40%
Chronic Substance Use Disorder	65%
HIV/AIDS	9%

21

Mental
Health
Specialists

Greet & Orient New Admissions
Serve Meals & Offer General Assistance
Appointments: Reminders, Cueing, Escorts
Patient Safety Monitoring
Milieu Management
Alert Team to Patient Needs & Concerns

22

Mental Health Professionals

- Screen referrals for patients with behavioral concerns
- Psychosocial Intakes: Benefits, Shelter/Housing/Disposition, Mental Health, SUD
- Therapeutic relationship-building
- Develop patient-specific behavioral plans
- Support patients during visits, when needed
- Post-respite follow-up

23

24

Questions & Discussion

- How do you cultivate a healing and therapeutic environment in your medical respite program?
 - Day to day programming, physical space, milieu management
- Let's talk about substance use:
 - How do you talk about this with clients?
 - How do you talk about this with staff?
 - Is there tension here with clients, staff, funders, board members, etc.?
